SPORTY COOL SPECTACLE

DV-353C-AFL

DV-353C-AFB

DV-353C-AFR

Description

Dromex® DV-353C, polycarbonate mono lens clear spectacles is designed to protect the users' eyes from flying debris, particles, and UV (Ultra Violet) light during work activities. Suitable in the construction, mining, milling, engineering workshops, factories, warehouse and general industries without compromising worker safety and vision.

Designed for compatibility with other PPE, such as industrial hats, hearing protectors and respiratory protective half mask devices. The Sporty Cool spectacle is lightweight with an impact resistant anti-scratch polycarbonate lens. These features ensures a firm fit promoting enhanced product performance and user comfort.

Colour coded rubber temples provides additional grip and comfort which prevents spectacles from falling off your face and allows differentiation of workforce.

Special Instructions

- Failure to adhere to all instructions and precautionary measures can result in injury.
- If the user has eye conditions or vision impairment, they must consult with a registered physician prior to use.
- Any damages to this protective device, as well as fogging may reduce clarity of sight that could result in injury.
- Following any major detectible defects on the spectacle, the spectacle should be replaced immediately.
- This eye protector is suitable for use to the lowest marking on the lens (ocular) and frame.
- If the lens becomes scratched or damaged, the eye protector should be replaced.
- It shall be the responsibility of the persons and organizations that use this spectacle to establish safety and health practices and to determine the applicability of regulatory limitations prior to use of this spectacle.
- The spectacle is designed to be used with other PPE equipment.

Compliance & Conformity

Conforms to CE, EN 166:2001. Revision of certification in progress.

Quality System as per ISO 9001:2008.

Specifications

Style:	Polycarbonate clear spectacles with rubber colour coded temples
Lens:	Shade UV filter, 2-1,2 Polycarbonate anti-scratch
Frame:	Polycarbonate frame polycarbonate with polycarbonate and rubber temples
Refractive Power:	±0.06 D
Astigmatism:	0.06 D
Optical class:	1 - ± 0, 06 DIOPTRES for permanent wear
Lateral vision:	180 degrees
Minimum Velocity particles:	Class F, 45 m/s
Mass:	31g
Additional:	Available in red part no: DV-353C-AFR, blue part no: DV-353C-AFB and lime part no: DV-353C-AFL colour coded temples

Packaging, Storage & Obsolescence

Packed 12 individually wrapped spectacles in a box and 25 boxes per carton (300 spectacles per carton). Store in a cool dry place.

Inspection Frequency and Details

Prior to use the spectacles should be free of any potential contaminants that can affect its intended performance. This spectacle should be inspected by the user at the end of every use and then again prior to each use. Cracked eyewear must be removed from service as they will reduce eye protection and obstruct vision.

Cleaning & Maintenance

Designed as re-usable protective eyewear. After use clean with a mild cleaning liquid, carefully rinse off all traces of the cleaning liquid and dry with a soft cloth and gently wipe with a soft spectacle cleaning material. Do not clean on clothing nor use abrasive cleaners.

Limitations of Use

These spectacles should not be used for any athletic game, recreational activities, paintball or simulated water activities. These spectacles are not suitable to protect from chemical, biological, radiological, and nuclear (CBRN) agents.

Recommendations and Restrictions

The use of this spectacle is restricted to the scope and application as intended by EN 166:2001.

Shelf Life

The duration of the spectacle cannot be determined by a timeline as its intended for normal day to day use. Ensure proper care and maintenance (inspection and cleaning) is adhered too. Under normal circumstances the eye protector should offer adequate protection for 3 years.

Disposal

All industrial waste should be disposed of correctly according to local regulations and good disposal practice. Safety eyewear should be disposed of considering the hazardous substance they were used for or could be contaminated with. Please consider recycling.
