Description

Dromex® MIIZULFM4001W high-visibility, soft, yellow polyester gloves with a poly-acrylic fleece lined fibre reinforces the micro foam finish palms and fingers is designed to keep hands warm in outdoor winter applications, cold storage, logistics and fishing applications, functioning at temperatures up to -50 degrees celcius when in contact with cold temperatures.

The black micro foam latex coated fingers and palms provides perfect grip performance whilst the back allows air to circulate and keeps hands dry.

This glove provides an ideal combination of abrasion, puncture, tear and cut resistance.

Special Instructions

Although the manufacturer has examined these gloves under the system for ensuring quality of production by means of monitoring and inspection, we recommend that all gloves should be thoroughly inspected before use to ensure no damage is present.

None of the materials or processes used in the manufacture of these products are known to be harmful to the wearer. The gloves and information contained herein are designed to accommodate the basic safety requirements and standards for Personal Protective Equipment. Actual conditions of use cannot be directly simulated in a test environment, therefore it is the responsibility of the user and not the manufacturer or supplier to determine the suitability for intended use.

Compliance & Conformity

Complies with the requirements of CE type examinations EN ISO 21420:2020 for innocuousness, EN 388 for Mechanical Risks (2,2,3,2,X) and EN 511, Protective gloves against cold (X,2,X) for compliance with directive PPE Regulation 2016/425.

Quality System conforms to ISO 9001:2008.

Specifications

Style: Double layer fluorescent lined gloves with micro foam coated fingers and palm
 Liner: High visibility yellow polyester liner (outside)
 Poly-acrylic fleece fibre lined (inside)
 Palm: Black micro foam latex coated on liner
 2.5 mm ± 5%
 Back: 2mm ± 5%
 Cuff: Polyester
 Mass: ±100 g per pair (size 10)

Packaging, Storage & Obsolescence

Packed in individual polybags and sold as 120 pairs per carton for shipping. Store in a cool, dry, dark place. Stored correctly, the gloves physical properties will not change for up to three years.

Cleaning & Maintenance

Gloves should not be left in a contaminated condition if re-use is intended especially if potential hazards exist. Before removal from the hands excess contaminant should first be removed from the glove. Should this not be possible, it is advisable to ease left and right hand gloves off using the gloved hand and remove the gloves without the contaminant contacting the bare hands.

The gloves may then be decontaminated as indicated below:

We recommend that no bleaching or oxidising ingredients or any fabric softeners be used. Recommended washing temperature is up to 40°C with mild detergents.

The drying process may cause felting on the fabric surface.

Drying temperature should not exceed 70°C (158°F).

There is no remarkable impact on cut resistance during the normal life cycle of a glove however, depending on glove construction, staining and cleaning method, the differences in shrinkage, yarn strength and colour may occur.

In order to maximise the glove life cycle, we recommend the mildest possible cleaning conditions in terms of temperature, chemicals and cycle duration. Due to a wide variety of possible constructions and combinations with other materials we recommend to always consult your professional cleaning service to determine the best suitable cleaning method.

Disposal

All industrial waste should be disposed of correctly according to local regulations and good disposal practice. Gloves should be disposed of considering the hazardous substances they were used for. Please consider recycling.

Sizes Available

Code	Size	Palm Length	Cuff Colour
MIIZULFM4001W-7	XS/S	113mm (±2mm)	Red
MIIZULFM4001W-8	S/M	115mm (±2mm)	Yellow
MIIZULFM4001W-9	M/L	117mm (±2mm)	Brown
MIIZULFM4001W-10	L/XL	119mm (±2mm)	Black

* As per the EN420 standard, actual measurement of gloves are determined by the manufacturer, taking into account the behaviour of the glove material, its thickness (such as leather gloves, PVC gloves etc), elasticity and the intended use.

* Sizing charts only serve as a guide. Sizes and measurements are for reference only. In order to make an informed decision, always try on the gloves as each glove features a unique construction to accommodate a wearer's preferences.

Measurement Guide

Marking

HCTLFM4001W SIZE 10

Materials

1. Wing thumb
2. Black micro coated foam latex coated fingers & palm
3. Polyester wrist cuff
