

Dromex

COTTON GLOVES GCOT RANGE

GCOT

GCOT/WL

Description

The Dromex® GCOT range of machine knitted, 10-gauge (GCOT) and 7 gauge (GCOT/WL), cotton blend ambidextrous seamless gloves are designed to keep the users' hands dry and clean from dust and dirt whilst providing comfort and protection of the hand.

The knit construction stretches for excellent fit, allows circulation of air in the glove and leaves no scratches or fingerprint residue contact on product.

Designed for a multiple range of industrial and household applications, it is ideal for warehousing, general maintenance industries and can be used as a liner glove.

Available in these colours:

- Part number GCOT, Natural cotton blend crochet glove with yellow cuff
- Part number GCOT/WL Bleached white cotton crochet glove with white cuff

Special Instructions

Although the manufacturer has examined these gloves under the system for ensuring quality of production by means of monitoring and inspection, we recommend that all gloves should be thoroughly inspected before use to ensure no damage is present.

None of the materials or processes used in the manufacture of these products are known to be harmful to the wearer. The gloves and

information contained herein are designed to accommodate the basic safety requirements and standards for Personal Protective Equipment. Actual conditions of use cannot be directly simulated in a test environment, therefore it is the responsibility of the user and not the manufacturer or supplier to determine the suitability for intended use.

Compliance & Conformity

Performs equivalent to the requirements of CE type examinations, EN 420 for innocuousness.

Specifications

Style: Re-useable ambidextrous gloves, winged thumb and knit wristed

Liner: Cotton, Polyester blend

Palm: Part number GCOT, 1.4mm ± 5 %
Part number GCOT/WL 1.5mm ± 5 %

Back: Part number GCOT, 1.4mm ± 5 %
Part number GCOT/WL 1.5mm ± 5 %

Cuff: Composite knitted wrist with over-locked cuff
1.6mm ± 5 %

Mass: Due to bleaching/colouring of cotton, expect variation in mass
Part number GCOT, ± 36g per pair (10)
Part number GCOT/WL, ± 42 g per pair (10)

Manufactured in: China

Packaging, Storage & Obsolescence

Packed in individual sealed plastic packets and sold as 300 pairs per carton for shipping. Store in a cool, dry place. Stored correctly, the gloves physical properties will not change for up to 2 – 3 years.

Cleaning & Maintenance

Gloves should not be left in a contaminated condition if re-use is intended especially if potential hazards exist. Before removal from the hands excess contaminant should first be removed from the gloves. Should this not be possible, it is advisable to ease left and right hand gloves off, using the gloved hand and remove the gloves without the contaminant contacting the bare hands.

The gloves must be decontaminated as indicated below:

The Dromex® GCOT range gloves have proven that dry cleaning as well as laundering are suitable cleaning methods. We recommend that no bleaching or oxidising ingredients or any fabric softeners be used. Recommended washing temperature is maximum 40°C (104°F) with mild detergents. The drying process may cause felting on the fabric surface. Drying temperature should not exceed 60°C (140°F). There is no remarkable impact on cut resistance during the normal life cycle of the glove.

Depending on the gloves construction, staining and cleaning method, the differences in shrinkage, yarn strength and colour may occur.

In order to maximise the gloves life cycle, we recommend the mildest possible cleaning conditions in terms of temperature, chemicals and cycle duration.

Disposal

All industrial waste should be disposed of correctly according to local regulations and good disposal practice. Gloves should be disposed of considering the hazardous substances they were used for. Please consider recycling.

Sizes Available

Code	Size	Palm Length
GCOT	L/10	100mm (±5mm)
GCOT/WL	L/10	100mm (±5mm)

* As per the EN420 standard, actual measurement of gloves are determined by the manufacturer, taking into account the behaviour of the glove material, its thickness (such as leather gloves, PVC gloves etc), elasticity and the intended use.

* Sizing charts only serve as a guide. Sizes and measurements are for reference only. In order to make an informed decision, always try on the gloves as each glove features a unique construction to accommodate a wearer's preferences.

Measurement Guide

Materials

1. Wing thumb
2. Knit wrist with overlock cuff
