

Dromex

DOUBLE DOTTED COTTON GLOVES

GCOT/DD

Description

Dromex® GCOT/DD (double dotted) machine knitted 7-gauge PVC dotted palm and fingers, cotton blend ambidextrous seamless gloves are designed to assist in grip on dry surfaces. These gloves provide abrasion resistance and aids in keeping the users' hands clean and dry from dust and dirt providing comfort and protection of the hand.

Knit construction stretches for excellent fit allowing circulation of air in the glove.

Designed for a multiple range of industrial and household applications. It is ideal for warehousing and general maintenance industries.

Available in various colours:

- Part number GCOT/DD, Natural cotton blend crochet glove, with black PVC dotted hand (both sides) with yellow cuff.

Special Instructions

Although the manufacturer has examined these gloves under the system for ensuring quality of production by means of monitoring and inspection, we recommend that all gloves should be thoroughly inspected before use to ensure no damage is present.

None of the materials or processes used in the manufacture of these products are known to be harmful to the wearer. The gloves and information contained herein are designed to accommodate the basic safety requirements and standards for Personal Protective Equipment.

Actual conditions of use cannot be directly simulated in a test environment, therefore it is the responsibility of the user and not the manufacturer or supplier to determine the suitability for intended use.

Compliance & Conformity

Performs equivalent to the requirements of CE type examinations, EN 420 for innocuousness.

Specifications

Style: Re-useable ambidextrous gloves, winged thumb and knit wristed
Liner: Cotton blend
Palm: Part number GCOT/DD, 2.4mm ± 5 %
Back: Part number GCOT, 2.4 mm ± 5 %
Cuff: Composite knitted wrist with overlocked cuff 2mm ± 5 %
Mass: Due to bleaching/colouring of cotton, expect variation in mass
Part number GCOT/DD, ± 78g per pair (10)

Packaging, Storage & Obsolescence

Packed in individual sealed plastic packets and sold as 120 pairs (packs of 12) per carton for shipping.

Store in a cool, dry, dark place.

Stored correctly, the gloves physical properties will not change for up to 2 – 3 years.

Cleaning & Maintenance

Gloves should not be left in a contaminated condition if re-use is intended especially if potential hazards exist. Before removal from the hands excess contaminant should first be removed from the gloves.

Should this not be possible, it is advisable to ease left and right hand gloves off, using the gloved hand and remove the gloves without the contaminant contacting the bare hands.

The gloves must decontaminated as indicated below.

In order to maximise the glove life cycle, we recommend the mildest possible cleaning conditions in terms of temperature, chemicals and cycle duration.

Due to a wide variety of possible constructions and combinations with other materials we recommend to always consult your professional cleaning service to determine the best suitable cleaning method.

Disposal

All industrial waste should be disposed of correctly according to local regulations and good disposal practice. Gloves should be disposed of according to the hazardous substances they were used for. Please consider recycling.

Sizes Available

Code	Size	Palm Length
GCOT/DD-10	L	105mm (±5mm)

* As per the EN420 standard, actual measurement of gloves are determined by the manufacturer, taking into account the behaviour of the glove material, its thickness (such as leather gloves, PVC gloves etc), elasticity and the intended use.

* Sizing charts only serve as a guide. Sizes and measurements are for reference only. In order to make an informed decision, always try on the gloves as each glove features a unique construction to accommodate a wearer's preferences.

Measurement Guide

Materials

1. Wing thumb
2. Knitted wrist with overlocked cuff 2mm
