## XTRA PVC GLOVES

### Description

Dromex® XTRA brown, heavy duty, PVC (Poly Vinyl Chloride), gloves coated on a cotton interlock lining is available in 27cm and 35cm lengths, features a rough finish on the palm and wrist for grip especially in wet and oily handling conditions and optimizes cut and abrasion resistance on the hand. The open wrist gauntlet cuff allows ventilation and easy quick removal of the glove.

The inherent properties of PVC, provides excellent resistance to most acids, oils fats caustics and petroleum hydrocarbons, suitable for used in the chemical industries, construction, agriculture and fishing.

PVC functions well between temperatures of -4°C & 66°C.

Xtra range of PVC gloves is available in the following cuff length styles:

- XTRA/KW – 27cm wrist length glove with a knit wrist cuff (A knitted wrist holds the gloves firmly on the users' hand and keeps dirt out).
- XTRA/27– 27cm wrist length glove with an open cuff.
- XTRA/35 - 35cm wrist length glove with an open cuff.

### Special Instructions

Although the manufacturer has examined these gloves under the system for ensuring quality of production by means of monitoring and inspection, we recommend that all gloves should be thoroughly inspected before use to ensure no damage is present.

None of the materials or processes used in the manufacture of these products are known to be harmful to the wearer. The gloves and information contained herein are designed to accommodate the basic safety requirements and standards for Personal Protective Equipment. Actual conditions of use cannot be directly simulated in a test environment, therefore it is the responsibility of the user and not the manufacturer or supplier to determine the suitability for intended use.

### Compliance & Conformity

Complies with the requirements of CE type examinations EN 420 for innocuousness, EN 388 for Mechanical Risks (4,2,4,2).

### Specifications

Style:	Fully dipped PVC glove with a choice of open cuff or knit wrist.
Liner:	Cotton blend liner.
Palm:	Rough finish, 2,2mm ±5%.
Wrist:	Rough finish 2,2mm ±5%.
Mass:	XTRA/KW 180g (±5) per pair (size 10), XTRA/27 - 215g (±5), XTRA/35 - 310g (±5).
Functioning Temperature:	-4°C to 66°C.

### Packaging, Storage & Obsolescence

Sold as 72 pairs per carton for shipping. Store in a cool, dry place and out of direct sunlight and UV light. Stored correctly, the gloves physical properties will not change for up to three years.

### Cleaning & Maintenance

Gloves should not be left in contaminated condition if re-use is intended especially if potential hazards exist. Before removal from the hands excess contaminant should first be removed. Should this not be possible, it is advisable to ease left and right hand gloves off using the gloved hand and remove the gloves without the contaminant contacting the bare hands. The gloves may then be decontaminated with mild detergent solution, then rinsed with clean water and dried ideally with some air movement. In order to maximise the glove life cycle, we recommend the mildest possible cleaning conditions in terms of temperature, chemicals and cycle duration. Due to a wide variety of possible constructions and combinations with other materials we recommend to always consult your professional cleaning service to determine the best suitable cleaning method.

### Disposal

All industrial waste should be disposed of correctly according to local regulations and good disposal practice. Gloves should be disposed of considering the hazardous substances they were used for. Please consider recycling.

### Sizes Available

Code	Size	Palm Length
XTRA/KW	L/10	125mm (±5mm)
XTRA/27	L/10	125mm (±5mm)
XTRA/35	L/10	125mm (±5mm)

\* As per the EN420 standard, actual measurement of gloves are determined by the manufacturer, taking into account the behaviour of the glove material, its thickness (such as leather gloves, PVC gloves etc), elasticity and the intended use.

\* Sizing charts only serve as a guide. Sizes and measurements are for reference only. In order to make an informed decision, always try on the gloves as each glove features a unique construction to accommodate a wearer's preferences.

### Measurement Guide

### Marking

XTRA/KW

### Materials

1. Wing thumb.
2. Rough finished palm.
3. Knitted wrist.

### Materials

1. Wing thumb.
2. Rough finished palm.
3. Fully coated PVC cuff.
