

Dromex

80/20 POLY COTTON
CONTI SUIT REFLECTIVE

Description

Dromex® DW-CONTI-RT-S high visibility jacket and pants suit is a strong, lightweight and durable work garment designed to provide the user with protection against mechanical hazards such as abrasion.

The DW-CONTI suit is a blend of 80% polyester and 20 % cotton which is an affordable alternative to 100% cotton with the benefits of sturdiness and colour fastness of polyester and comfort of the cotton.

This garment is available in 8 different colours, royal blue, black, emerald-green, grey, khaki, navy blue, orange and red which consists of the following:

Jacket features:

- Collared jacket.
- Concealed YKK metal zip closure.
- 2 Open laid on waist pockets and 1 left breast pocket with a V flap, concealed metal press stud closure with pen division and a Dromex® sidewinder.
- High visibility lime green silver reflective tape on arms for enhanced visibility when working in poor lighting environments.
- Stress points are re-enforced with bar tacks for added durability.

Pants features:

- A concealed YKK metal zip with metal button closure at waist.
- Two fronts laid on pockets and a rear open pocket with a Dromex® sidewinder.
- Seams are triple needle top stitched and stress points are bar tacked for added durability.
- Inner elasticated waist for optimum fit and flexibility with 7 belt loops.
- High visibility lime green silver reflective tape on legs for enhanced visibility when working in poor lighting environments.

This garment is suitable for use in general work environments such as logistics, warehousing, construction, workshops, maintenance and repairs, janitorial, gardening and general-purpose applications.

Special Instructions

None of the materials or processes used in the manufacture of these products are known to be harmful to the wearer. The manufacturer has examined under the system for ensuring quality of production by means of monitoring and inspection. These polycotton garments are designed to accommodate the basic safety requirements and standards for Personal Protective Equipment. Not for use against heat and flame hazards. The information contained herein is intended to assist the wearer in the selection of personal protective equipment. Actual conditions of use cannot be directly simulated in a test environment therefore it is the responsibility of the end user and not the manufacturer or supplier to determine the garment suitability for the intended use. This garment should be thoroughly inspected before use to ensure no damage is present.

Cleaning & Maintenance

- The following suggestions will help keep your garment safe and neat:
- Polycotton garments can be cleaned by home cleaning or commercial laundering provided all the recommended conditions and setting are adhered to.
- Should home procedures not remove contaminants, then dry cleaning is recommended.
- Our recommended cleaning for these garments is as follows:
 - Pre-treat greasy stains and wash the garment in warm water with a light cleaning solvent.
 - Do not use Hypochlorite bleach or detergents containing Hypochlorite bleach.
 - Chlorine bleach may cause fading and reduce fabric strength.
 - Do not overload home laundry equipment.
 - Do not tumble dry garments.
 - Thoroughly rinse the garment to remove any wetting agents.
 - Do not hang in direct sun.
 - Sunlight can cause fading and reduce fabric strength.
 - Iron the garment to on low heat.
 - Do not iron on reflective tape.
 - When using commercial laundry aids, be sure to read and carefully follow the manufacturer's instructions.
