## DENIM CONTI SUIT

### Description

Dromex® DW-DENIM CONTI suit is a 100% cotton, heavy duty and durable industrial denim pants and jacket attire, designed to protect the user from abrasion when working in environments exposed to mechanical hazards.

The DW-DENIM-CONTI garment construction and user fit conforms to SANS 434 standards.

This attire consists of the following:

#### Jacket features:

- Collared jacket with internal hanger loop.
- Concealed metal YKK zip closure.
- 2 Waist pockets and 1 left breast pocket with a curved mitred flap and concealed metal press stud closures.
- Side slits for better fit over waist.
- Seams with triple needle top stitching.
- Core spun thread that is double stitched for durability on the inlegs, pocket opening, zip front, back yoke and the back rise.

#### Pants features

- All seams with triple needle top stitching for durability.
- A concealed brass zip with metal nickel button closure at waist.
- Two fronts swing pockets and a rear mitred back pocket flap with metal press stud closure.
- A tool pocket on the back right leg.
- A high visibility Dromex Arc sidewinder label.
- Inner elasticated waist for optimum fit and flexibility with 7 belt loops.

The cotton natural fibre construction makes this garment comfortable and breathable.

This garment is suitable for use in general work environments such as warehouses, construction, corporate and promotional work.

#### Special Instructions

None of the materials or processes used in the manufacture of these products are known to be harmful to the wearer. The manufacturer has examined under the system for ensuring quality of production by means of monitoring and inspection. These denim jeans are designed to accommodate the basic safety requirements and standards for Personal Protective Equipment. The information contained herein is intended to assist the wearer in the selection of personal protective equipment. Actual conditions of use cannot be directly simulated in a test environment therefore it is the responsibility of the end user and not the manufacturer or supplier to determine the gloves suitability for the intended use. Keep clear of open flames.

All denim jeans be should be thoroughly inspected before use to ensure no damage is present.

#### Compliance & Conformity

This garment conforms to SANS 434:2011 (This standard specifies requirements for the material, cut, make and trim of boilersuits, two-piece work wear suits, bib and brace overalls, coats and unlined jackets).

#### Cleaning & Maintenance

The following suggestions will help keep your garment safe and neat:

Denim garments can be cleaned by home cleaning or commercial laundering provided all the recommended conditions and setting are adhered to.

Should home procedures not remove contaminants, then dry cleaning is recommended.

Our recommended cleaning for these garments is as follows:

- Pre-treat greasy stains and wash the garment in warm water with a light cleaning solvent.
- Do not use Hypochlorite bleach or detergents containing Hypochlorite bleach.
- Chlorine bleach may cause fading and reduce fabric strength.
- Do not overload home laundry equipment.
- Do not tumble dry garments.
- Do not hang in direct sun.
- Sunlight can cause fading and reduce fabric strength.
- When using commercial laundry aids, be sure to read and carefully follow the manufacturer's instructions.
