FREEZER WEAR
STORM ACTIVE BODY WARMER JACKET

STBW-A

Description

Dromex® Storm Active body warmer, thermal protective sleeveless jacket worn over long sleeve sweater and shirts is lightweight, protecting the users' torso against the hazards of cold temperatures in cold environments.

The Dromex® Storm Active body warmer construction, is breathable whilst the inner cotton and taffeta lining keeps the user's body warm.

The Dromex® Storm Active jacket design consists of a metal zip front with zipper, two waist pockets with zip closure and an internal pocket on the right breast.

Suitable for applications where there is exposure to cold environments such as cold storage and refrigeration companies. In addition suitable for outdoor work, used in general industries and can be used as a corporate or casual winter uniform.

Special Instructions

This type of garment is not designed for warm working conditions.

Keep clear of open flames.

None of the materials or processes used in the manufacture of these products are known to be harmful to the wearer.

The manufacturer has examined under the system for ensuring quality of production by means of monitoring and inspection.

The information contained herein is intended to assist the wearer in the selection of personal protective equipment.

Cleaning & Maintenance

Dromex® Storm Active body warmer jackets should not be left in a contaminated condition if re-use is intended especially if potential hazards exist.

The garments should be decontaminated before storage and re-use as indicated below:

Do not machine wash.

Hand wash only, water temperature must not exceed 40 degrees celcius.

Do not bleach.

No bleach product may be used as the garment is not colourfast or structurally designed to withstand any bleach.

Do not iron.

Do not dry clean.

This garment may not be commercially dry-cleaned.

Cleaning of this garment is best done using a mild detergent with deodoriser, wipe clean or air dry.

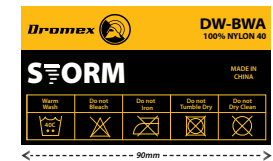

Disposal

All industrial waste should be disposed of correctly according to local regulations and good disposal practice.
