STORM/FREEZER WEAR
HARDBODY, BODY WARMER JACKET

STBW

Description

Dromex® Storm Hardbody, body warmer, thermal protective sleeveless jacket, worn over long sleeve sweater and shirts is lightweight, protecting the user's torso against the hazards of cold temperatures in cold environments.

The Dromex® Storm Hardbody, body warmer construction is breathable whilst the inner cotton and taffeta lining keeps the user's body warm.

The Dromex® Storm Hardbody jacket design consists of a metal zip front and zipper with a press stud storm flap closure, four external pockets (two hip and two breast pockets with storm flap) with and an internal pocket on the left breast with Velcro closure.

Suitable for applications where there is exposure to cold environments such as cold storage and refrigeration companies, outdoor work, used in general industries and can be used as a corporate or casual winter uniform.

Special Instructions

This type of garment is not designed for warm working conditions. Keep clear of open flames. None of the materials or processes used in the manufacture of these products are known to be harmful to the wearer. The manufacturer has examined under the system for ensuring quality of production by means of monitoring and inspection. The information contained herein is intended to assist the wearer in the selection of personal protective equipment. Actual conditions of use cannot be directly simulated in a test environment therefore it is the responsibility of the end user and not the manufacturer or supplier to determine the body warmers suitability for the intended use. All body warmers should be thoroughly inspected before and after use to ensure no damage is present.

Packaging, Storage & Obsolescence

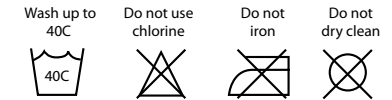

- The standard packaging for the Dromex® Storm Hardbody warmer is as follows.
Each jacket is packaged in a reusable zip lock polybag and sold as 10 units in a box.
- Store the Dromex® Storm Hardbody body warmer in its original packaging in a cool dry place and out of direct sunlight.

Cleaning & Maintenance

Dromex® Storm Hardbody, body warmer jackets should not be left in a contaminated condition if re-use is intended especially if potential hazards exist. The garments should be decontaminated before storage and re-use as indicated below:

- Do not machine wash.
- Hand wash only, water temperature must not exceed 40 degrees Celsius.
- Do not bleach. No bleach product may be used as the garment is not colourfast or structurally designed to withstand any bleach.
- Do not iron.
- Do not dry clean. This garment may not be commercially dry-cleaned.
- Cleaning of this garment is best done using a mild detergent with deodoriser, wipe clean or air dry.

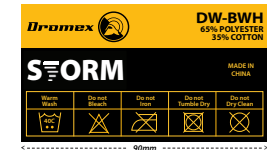

Disposal

All industrial waste should be disposed of correctly according to local regulations and good disposal practice.
